# PRESS RELEASE

**Nature meets luxury at Ontario's newest glamping retreat east of Toronto**  
*Whispering Springs Wilderness Retreat offers Torontonians easy escape from city living*

**Grafton, June 26, 2017:** This August, Whispering Springs Wilderness Retreat will open its gates to the public, becoming the first upscale camping experience in Northumberland County. Located a little over an hour east of Toronto, near the town of Cobourg, Whispering Springs will offer all the luxuries and amenities of a boutique hotel, nestled within the Canadian wilderness. This upscale glamping resort is situated on 150 acres of woodland in the hills of Shelter Valley, and boasts one of the premiere natural spring water sources in Eastern Canada.

What exactly does luxury camping (or glamping) entail? Gourmet s'mores, luxurious tents, and outdoor hot tubs are just the beginning. Whispering Springs Wilderness Retreat will initially launch with three elegant safari tents, all featuring ensuite bathrooms, king-size beds and fine linens, with plans to expand to 15 tents over the coming year. Whispering Springs Wilderness Retreat also boasts a picturesque amenities area with an outdoor pool, hot tub, guest lounge & bar and a communal campfire area. A lodge-inspired pavilion will serve as a common gathering area, and will be available for weddings, conferences and retreats.

---

*"Luxury camping is the perfect way to expose the great outdoors to individuals who have never camped before, or for those who are simply tired of roughing it," says John Corcoran, founder of Whispering Springs Wilderness Retreat.*

---

Originating in Africa, glamour camping has been gaining popularity all over North America yet is still relatively unheard of in Southern Ontario. Whispering Springs Wilderness Retreat would like to change this, and help individuals reconnect with nature in comfort and style, while still preserving the essence of the traditional camping experience.
